Os Thursday and up to yesterday afternoon Pittsburgh was having great fun with the Syrscuse visitors. The boys from the salt marshes couldn't play ball stall, and it was all just too funny for anything. Now Pitteburgh is on the flat of her back and Syracuse is proudly perched on top. Maybe Wheeling will get a chance to knock Pittsburgh out.

Ir the long and short haul clause it properly suspended in favor of Southern roads because of water competition, how is the Commission to avoid applying the same principle to other roads under like circumstances? And would not this policy let them all out? There is not a railroad in the country that could not in some way figure out a water competition

It took a long time of talking to set the Brooklyn Bridge on its feet. This accomplished, there is a good prospect of the building of another great bridge to connect New York City with Long Island, the central pier reating on Blackwell's Island The new bridge is to be three and three quarters miles long and 153 feet high miles an hour. A part of Long Island capable of giving homes to two millions of people will be opened up.

Editor Dana's Prediction.
New York, April 8.—The Mail and Ex press to-day quotes the following reply of Mr. Charles A. Dans, of the Sun, to an inquiry as to whether he thought the New York delegation would support Cleveland for President in the next National Demo-

eratic Convention:
"I will say positively that I do not think it possible under any conceivable circum stances for the delegation to be for Mr Glaveland. I will make it stronger by adding that I do not think even a minor-ity of the delegation from New York will be for Mr. Cleveland."

## Smallney in Chicago.

CHICAGO, April S .- City Health officers began making the rounds of the Italian district to-day, where the case of smallpox was discovered yesterday, and have infected districts. The health nt case bears a striking resem-the way in which the epidemic aght over to this country and 1831 consider that the authorities ork have been singularly lax in arve of their duties. The local the discharge of their duties. The local authorities, however, confidently expect the disease will be stamped out before it has time to apread.

Chicago Boodlers. Chicago, April 8.—Michael C. McDon ald appeared in the Criminal Court this morning as surety on the bonds of ex-Commissioner Van Pelt and E. D. McDonindictinents against him. Alphoneo J. Waker also gave bond to-day for \$1,000 on one indictment for conspiracy, and Chris Keelling bonded in \$5,000 additional tonsmines indictinent.

## THE FISHERY QUESTION

Retaliatory Measure, but at the Same Time Assures the People that he wfil Uphold the Dignity of the Nation.

WARHINGTON, D. C., April 8 .- The Presi-Massachneette, calling attention to the Fisheries dispute, and suggesting that the retaliatory act passed by the late Con-gress would, in their opinion, be sufficiently executed if the proposed retaliatory law was confined to the closing of the United States market to Canadian fish products, he has made the tollowing

George Steet, Eary. President American Fishery Union, and others, Gloucoter, Mass.: Commerce I have been and where therein constained, in relation to the expression of the views and wishes therein constained, in relation to the existing differences between the Government of Great Britain and the United States, growing out of the refusal to award to our citizens engaged in fishing enterprises the privileges to which they are entitled, either under treaty stipulations or the guarantee of international comity and neighborly concession.

I sincerely trust the apprehensions where the consular state of American fishermen lawfully found in Canadian waters will not be realized, but if such apprehensions should have to be well founded, I carnestly hope that no fault or inconsiderate action of any of our citizens will in the least weaken the consular service is that a rigid examination is supposed to be made of all camport to, which we should be entitled. The section of this administration since June 1885, before been given by our Government, has been fully disclosed by the correspondence between the representatives and the appropriate departments of the respective governments, with which, I am apprised by your letter, you are entirely familiar. An examination of this correspondence between the representatives and the appropriate departments of the respective governments, with which, I am apprised by your letter, you are entirely familiar. An examination of this correspondence between the representatives and the appropriate departments of the respective governments, with which, I am apprised by your letter, you are entirely familiar. An examination of this correspondence between the representatives and the appropriate departments of the respective governments, with which, I am apprised by your letter, you are entirely familiar. An examination of this correspondence between the represen every means within the control of the ex-scutive branch of the government.

The act of Congress approved March 3, through executive action in the event of a

ble commercial intercourse between the British possessions of North America and the people of the United States. I understand the main purpose of your letter is to suggest that in case nd thus protect all our people. In this iew, the violation of American the violation of American rights and natural or un-y acts towards a portion friendly acts towards a portion of our citizens engaged in this business, is but the occasion for action, and constivalue may well depend upon the thorough-ness and extent of its application, and in the performance of international duties the enforcement of international rights government and the people of the United States must act as a unit, all intent upon attaining the best result of retaliation upon the basis of a maintenance of naonel honor and duty. A nation seeking y any means to maintain its honor, dignity and integrity is engaged in protecting the rights of its people, and if in such ef-forts particular interests are injured and

shall be considered as against the general

OTTAWA, April 8.-The imposition by the Dominion Government of higher duties upon fish does not appear to have reduced the consumption of improv-

nave reduced the consumption of improv-id dish in Canada.

The trade and navigation returns of 1886 show that the total value of the dutiable ish imported last year wan \$180,273, com-ared with \$107,745 in 1885. The amount of customs duties paid upon fish in 1886 was \$77,125 and in 1885 \$21,601. Thus the imports of foreign fish into Canada of customs duties pair upon has a reason was \$77,128 and in 1885 \$21,201. Thus the imports of foreign fish into Canada have more than quadrupled in one year. In addition to the foreign returns of dutiable fish it must be remembered that Newtonniland fish are admitted free, although Canadian fishermen have again and regain demanded that their business should be protected. The value of the fish imported into the Dominion from Newtonniland hast year was \$289,197.

Under the circumstances it is not surprising to find the lishermen of Nova Scotia and New Branswick demanding that the fish duties shall be adjusted in such a way as to give them an advantage in the home market.

Scatch Recovering.

Cinearon, April 8.—Madame Scalchi, who has been carjously ill with typhoid bever at the Grand Pacific hotel for the pact five weeks, is now so far recovered as recovered as the aide to drive out. By the advice of her attending physician she will leave for the searing to the matter than the united States continue to increase. In 1885, 2.024 united to the searing to the matter than the united States continue to increase. In 1885, 2.024 united to the continue to increase.

# TILGHMAN'S HIGH FLYING.

Washington, April 8.—The reports from London of the disreputable operations of Wm. P. Tilghman, late Deputy and Vice Consul General at Berlin, have brought out stories of his character while in this country that makes his appointment as Consular Clerk by Secretary Bayard seem strange. Tilghman is a grandson of the late Dr. C. C. Cox, of Maryland, at one time Health Officer of the District of Columbia.

late Dr. U. O. Cox, of Maryland, at one time Health Officer of the District of Columbia.

On account of his family connections Tilghman was well received at Berlin, and when he was left in charge of the office, owing to the absence of Consul General Raine, at St. Petersburg, he splurged out in great style, and draw drafts on people in the United States, which were returned drafts by drawing new ones, and he confidenced a number of Americans abroad by borrowing money. The cable accounts of Tilghman's career represent him as paying attentions to an American heiress, and this makes his crime still more aggravated, because he was married in this country and his wife now lives in Boston. She left him before his appointment to the Consular service on account of his swindling propensitiee, and it appears his exposure is all that has saved him from committing bigany.

It is understood in London that he has been dismissed by the Consul General at Berlin, but this is not true. A gentleman familiar with the affairs of the State Department says that Tilghman has simply been transferred to Rotterdam as Consular Clerk, and his office can only be vacated by the President, who signed his appointment.

and is as yet unable to administer it. As to the argument in the particular case be-

Washington, D. C., April 8.—On Easter Monday Mrs. Cleveland will come in from Oak Hill where she has been for the las few days, to see the egg rolling in the novel spectacle for her, and is one of the most curious and distinctive childrens customs in the world. Egg rolling at Easter is common enough, but why the Washington children, for longer back than anybody can remember should this day take possession of one particular spot, is as quer as anything in the mysterious region of child mythe and enstones. Nobody thous we have to reliable the first terminal to the control of th sauo on the south portico, and would be highly indignant if he failed to put in an appearance. No doubt, Frankie, as the children call Mrs. Cleveland, will be snxiously expected on Monday, and her arrival will be halled even more than the President's.

WASHINGTON, April 8.—Although corspondence has not yet begun between the Department of State and the Government of Great Britsin, in regard to the re ported threat of that Government to seize ortugas Island from Hayti in default of a ebb, yet an investigation is being made, nd all of the data relating to the subject a the nonsession of the Department is bend an or the control of the Department is be-ng collected.

The English claim appears to be very

The English claim appears to be very intricate in its nature. Correspondence had in Mr. Frelinghnysen's administration chows that the claim is an individual once, based upon a number of cessions, subcressions and contracts regarding the privilege to cut makegany, that was not cut, or at least in sufficient quantity.

The amount of the claim in Secretary Frelinghuysen's administration was placed at \$600,000.

WASHINGTON, D. C., April S .- A deleation of cattle dealers waited on the President this afternoon and invited him month. o attend the reunion and banquet of the ive stock breeders of the United States, to be held at Chicago, November S, 1887. The President thanked them for the invitation, and said that while he had a great desire to yield the West, he could not very well promise to accept an invitation for a date so far in the future. His presence in Chicago in November, he remarked, de-pended entirely upon the state of public affairs at that time.

## MR. BLAINE'S ILLNESS.

HE IS SICK AT FORT GIBSON,

and has Been Detained There by an Attack of Bronchial Catarrh-Though Unwell he will Start North To-day, his Destination Probably being Chicago.

prints the following to-day:
"Word was received in St. Louis late ast night to the effect that Mr. James G. Blaine was seriously ill at Fort Gibson been telegraphed for."

A private dispatch has been received in this city to-day from Fort Gibson, Indian Territory, stating that Mr. Blaine has a severe cold and is threatened with pneu-No particulars have yet been received

Coppinger, the commandant of the post

Coppinger, the commandant of the post and son-in-law of Mr. Blaine, asking for the facts, and they will be reported as soon as they are received.

It is understood that Mr. Blaine has been in bad health for some time, and that his trip West and prospective European tour are taken for the purpose of obtaining rest and strength. He has had a cough for some time, and during his Western tour has exposed himself several times, and as a result has taken cold. Mr. Blaine has had throat troubles ever since 1884, when he made so many speeches.

fact that a physician has gone from he to see and perhaps attend Mr. Blaine the face of the probable fact that there ekillful army surgeon at Fort Gibs To determine this, however, further ad vices will have to be awaited. Meantime the private telegram previously referred to giving the statement of Mr. Blaine's physician, is as follows: "Mr. Blaine is deline with the private to giving the statement of Mr. Blaine is the property of the private that the property of the loing well; only slight fever. Pulse go 50 per minute, respiration, 15" NATURE OF HIS ILLNESS,

Sr. Louis, April 8.-The following disat 8:30 to-night in reply to a telegram sent this morning to the commandant of the post at Fort Gibson asking for an account of Mr. Blaine's sickness:

FORT GIBSON, I. T., April 8. Mr. Blaine is suffering from bronchial catarrh with fever of a remitting type. He sleeps well, and has no typhoid symp-toms. His respiration is normal, 15 per

[Signed.] Chas. P. Berne,
Post Surgeon.
A dispatch to the Associated Press from
Denicon, Texas, says: The manager of the
telegraph office at Gibson station reports
that news was received there to-night at 7
P. M., by telephone from Fort Gibson, Indian Territory, and says: "Mr. Blaine is
quite sick; that he has a cold and some
tever; that he is sleeping well, and that he
had broachial catarth. His respiration is
normal. Two physicians are expected
there from St. Louis to-night."
We could not learn whether his condition was serious or not, as the post is
some distance from the railroad, and the
telephone between these points was not
working well. There is no telegraph line
between the station and the fort. It is
doubtful if anything later can be learned
to-night unless a special messenger is sent
in from the fort to the station or to Muskogee.

The latest information from Fort Gibon is that Mr. Blaine was quite unwell on Sunday night; that he did not go over to the Fort until the next day; that he has been ill with a very bad cold since then, but that he will leave for the north to-morrow. It is not stated where he will go, nor what his future movements will has but it was discussed. be, but it was given out when he was in this city that when he left Fort Gibson he would go to Chicago.

## Banquet Posts

ers' Club has invited Mr. Blaine to attend their last banquet for this season, which has been postponed in hope that he will be he had not replied. They have not been

HUNTINGTON, W. VA., April S.—The city election held yesterday resulted in a complete Democratic victory. The Democratic candidates for Mayor, Recorder and nine Councilmen were elected by majorities candidates for algor, accorder and mae Conneclmen were elected by majorities from 22 to 200. There were 951 votes cast, more than at any personas city election. The Republicans can blame themselves for their defeat as they scratched and or their derent poolted unmercifully.

## The Blast Furnaces,

PITTEBURGH, April S.—The American Hamufacturer's report of the condition of Manufacturer's report of the condition of the blast furnaces shown that at the first of the present month there were in blast 553 furnaces, with a weekly capacity of 137,523 tons. The number out of blast was 256, with a weekly capacity of 51,899 tons. This makes a total increase of four furnaces in blast as compared with the figures of last month. The decrease in the capacity of the charcoal furnaces in blast is 255 tons. Though there is an increase in the number of anthracite furnaces in blast, there is a decrease in the number of anthracite furnaces in blast. in the number of anthracite furnaces in blast, there is a decrease in the capacity of 200 tons per week. On the other hand the bituminous furnaces abow an increase in weekly capacity of 2.875 tons during the month. The total increase in capacity of grades is 2.350 tons. grades is 2,350 tons

in a Game Full of Brilliant Points-The

reporter.

"I have not the slightest doubt," he continued, "that Kiesaue has been beset by people who know his past history, who want to seil their silence. Kiesane is a shrewd man, I should judge, and, from all I can make out, a man of nerve. I have no doubt that he has determined to throw these people off finally, and so effectually that they can no longer make any demands upon him. He has done it by the course that I think he has taken. I do not believe that this exposure is the result of any bungling on the part of his lawyer. I think it had a design and a purpose in it. Instead of letting these people do it who threatened, probably, to expose him, he has done it himself. It has been done very effectually.

"Now he can meet these people, even should they trouble him again, and say: "Now overy broboly knows who I am, what I have done, and you can do your worst." If he has adopted this policy he has acted wisely, for to try to silence those people who reproach you with your spost him for the continuous proposed in the proposed of the new rules, was regarded as wonderful. Mountarille Heraid.

Our people are expressing considerable indignation at the course of the Wheeling papers in almost wholly ignoring our gas well. They must recognize the fact that the development of a good gas field in Marshall county could not help but benefit this whole region, Wheeling included and they should aid in booming the territors. We hope there is nothing intentional in their silence. They may as well accept the inevitable gracefully. We have not only the advantage of this chem have not only the advantage of this chem have more and utilize them also. have not only the advantage of this chi fuel but also other numberless advanta

which Wheeling has not. For Mounds ville, the signs of the times are propitions At the Opera House To-day. The Davenport, Iowa, Gazette in reporting a performance of "East Lynne" by the would be assured among actresses where emotional and finely involved delineations are tests. Water S. Baldwin appeared in the role of Archibald Carlyle and distingu-ished himself by his suave manners, his easy bearing and his lofty rendition of the character."

the character."

In the evening "A Celebrated Case" will be given. The prices of admission at each performance will be 10 and 20 cents. Reserved reats, without extra charge, were put on sale at Baumer's Thursday and sold well.

## The Glass Blowers' Last Day

The Glass Blowers' Last Day.

The Bohemian glass blowers, who have so pleasantly entertained several hundred people during the past two weeks with their work and the display of the many ipretty and fanciful articles they make, at the room in McLain's block on Twelith street that they have occupied, will closs their engagement to-day, giving afternoon and evening exhibitions. This afternoon and evening exhibitions. This afternoon a handsome glass prize valued at \$15 will be given to the baby present that is voted to be the pretitiest. This will be the last chance to see the glass engine and fabrics. Last night Mayor C. W. Seabright was voted to be the homeliest man and received the handsome Tarkish pipe. He made a speech of thanks. The vote was Seabright, 41; Charles Kennedy, 18; William Pine, 19. Only ladies were permitted to vote.

The sale of seats for the engagement at the Opera House Monday, Treeday and Wedneadny of next week, lessures good houses. The popular idea that "of country the price of seats will be raised for 'Evan geline,'" is erroneous. While the bur regime," is erroneous. While the but leque is usually given only at highe prices than provail here, the customar prices at the Opera House will remain usualing the changed for this engagement.

cite large shipments of flour down the Mississippi because through rail rates are

Mississippi because through rail rates are raised.
Coal rates increase the cost of fuel \$1 per ton about Philadelphia; changes in iron freights disturb the trade, and may close some furnaces. These are but a few of the difficulties which the Commission is expected to examino, and in some way to remedy, but the question is how far is it able.

to remedy, but the question is how far is it able.

General buriness is fairly active, though dullness is the complaint at some points. The output of iron for the first quarter of 1887 is reckoned at 1,668,046 tons, which is at the rate of 15.6 per cent over last year's production. Yet the present demand is slack. New Orleans finds freight handling embarrassed by labor dissensions, and trade is dull there, at Mobile and Montgomery, active at Birmingham, improving at Louisville except in distilling and quiet and hopeful at Milwaukee since the defeat of the labor ticket.

Money is in moderately good supply though growing scarce at Cleveland, and needed at Milwaukee on account of slow collections. From most points collections are reported reasonably prompt. barber, Flath, who was arrested in Brooklyn, on suspicion of being concerned in
the Rahway murder, was arraigned before a Police Justice to-day and discharged.
There was no evidence to show that he
was concerned in the matter.

A dispatch from Rahway, N. J., this
afternoon, says that Edson M. Hubbard
has become a raving maniac by brooding
over the murder. Last night he left his
home in East Rahway and ran screaming
over gardens and fields. At 4 o'clock this
morning he began shouting "murder"
near Mayor Daly's house on Main street,
when Assistant Chief of Police Conger arrecied him and locked him up in a cell at
headquarters.

There is a growing real estate specula South. Not a few prudent men doubt whether there is not an undue expansion of credite, resulting from speculative activity, and caution in that direction is certainly warranted.

certainly ameranted.

In the greater markets speculation is spasmodic. Wheat has advanced I cent. Gorn and oats changed little; hogs and lard are lower; oil had a spasm of activity for two days, but closes less that a cent higher than last week; tin recovers a little after a decline and copper, iron, sugar and wool are unchanged. Coffee has risen one-fourth cent and cotton a sixteenth. Stocks declined sharply whon Wall street realized that the long expected disturbances, in consequence of the Inter-State act, had actually commenced, and then recovered a little on suspension of the act by the Commission in lavor of the Southern roads. Advices received by the Haytien Lega-tion in Paris, from Port-an-Prince, say the Haytiens are much excited over Great Britain's demand, but deny that they have threatened to massacre foreigners. Vienna, April 5.—It is known here tha

STRINGENCY IN THE MONEY MARKET, Flurries of stringency in the money parket have continued, but the Treasury as poured out \$4,200,000 in gold during

The business latures during the last seven days number for the United States. 195, Canada 25, total 220, against 223 last week, and 215 the corresponding week of last year. Failures in all sections of the country are about up to the average, except in New York City, where the assignments number only six, which were unimportant.
